

Midsize Enterprise Summit®

Spring 2019 | May 5 – 7, 2019

Tech Supplier Roundup

ADT Security Services- www.security.adt.com

Aparavi Software Corp – www.aparavi.com

Aparavi delivers intelligent multi-cloud data management. Aparavi® Active Archive™ helps organizations master out of control unstructured data growth. Delivering both on-premises and multi-cloud mobility, Aparavi provides true storage independence, and together with an open-data format removes vendor lock-in, forever. Aparavi slows secondary storage growth by 75 percent with guaranteed availability regardless of how long data is retained and pays for itself in reducing secondary storage spend. A pay-as-you-go SaaS model based on usage eliminates up-front expenditures for a better total cost of ownership.

Arctic Wolf –<https://arcticwolf.com>

Arctic Wolf Networks provides SOC-as-a-service that makes every link in the security chain stronger. To effectively combat cyber threats, AWN CyberSOC™ relies on human expertise and machine intelligence. It's not a product but a discipline, where dedicated Concierge Security Engineers tackle security matters using the full spectrum of defense mechanisms for prevention, detection and response. The turnkey service includes a proprietary SIEM, requires no additional staff, and deploys in minutes. Value is delivered every day without any upfront costs or long-term contracts. The cloud-based Arctic Wolf CyberSOC service provides even the smallest companies peace of mind.

AT&T - www.business.att.com/

AT&T Communications provides mobile, broadband, video and other communications services to U.S.-based consumers and nearly 3 million companies globally – from the smallest business to nearly all the Fortune 1000 – with highly secure, smart solutions. AT&T Communications is part of AT&T Inc., (NYSE:T) a modern media company whose mission is to inspire human progress through the power of communication and entertainment.

Presidency Solutions specializes in servicing the Software Development, Cloud/Modernization/Upgrade, and Maintenance/Support needs of Small and Medium size businesses all across USA. Our distinct advantage comes from a combination of multiple US locations coupled with Nearshore capabilities in Mexico and Offshore capabilities in India. Custom Application Development, Web/Mobile, Legacy System Upgrades, Analytics, Automation, Office 365/CRM implementations and Staff Augmentation/Extended Teams are some of the key services that we provide at excellent Nearshore/Offshore prices.

Prosperi – www.prosperiglobal.com

Prosperi enables intelligent, End to End Project and Portfolio Management for the Modern Workplace, using Microsoft PPM as a foundation. Prosperi provides:

- rapid deployment - within hours – using unique, dynamic templates based on over 17 years experience,
- seamless and intelligent integration with all necessary services such as capital expenditure, analysis, and collaboration to drive business results,
- modern user experience to inspire teams to collaborate and execute on the most cost effective, strategic projects, from anywhere, at any time.

Qnext Corp – www.fileflex.com

Selected as a 2018 Red Herring Top 100 Global winner for disruptive technology and recognition of the technology industry's most exciting and innovative private companies, Qnext Corp. is an innovator in file sharing and collaboration software based on edge computing technology. FileFlex Enterprise, an on-premise file sharing and collaboration solution, provides a highly secure hybrid point-to-point, software-only service that allows organizations to remotely access, share, stream, manage and collaborate 100% of their data from source locations.

QS2 Point - <https://www.qs2point.com>

QS2 Point is an American technology and consulting firm; a trusted partner for software and application development. By leveraging the power of technology, we help businesses stay innovative in this time of digital transformation.

Requestia – www.requestia.com

SlicingDice – www.slicingdice.com

SlicingDice is The All-in-One Data Warehouse. A single cloud-based solution that provides all the fundamental tools used by technical and business people to transform companies' raw data into insightful business-oriented decisions.

Scale Computing - www.scalecomputing.com

Scale Computing is the industry leader in complete hyperconverged solutions with thousands of deployments spanning from the SMB to the distributed enterprise. Driven by patented technologies, HC3 systems install in minutes, can be

expanded without downtime, self-heal from failures, and automatically optimize workloads to maximize price-performance.

SonicWALL – www.sonicwall.com

SonicWall has been fighting the cybercriminal industry for over 27 years defending small and medium businesses, enterprises and government agencies worldwide. Backed by research from SonicWall Capture Labs, our award-winning, real-time breach detection and prevention solutions secure more than a million networks, and their emails, applications and data, in over 215 countries and territories. These organizations run more effectively and fear less about security.

StorageCraft Technology - <https://www.storagecraft.com>

IDC says the world's data will grow to 175ZB by 2025. You would need 12.5 billion of today's largest hard drives to download it. StorageCraft solves the business problems of continuous and massive data growth. Our products are optimized for mid-market organizations, which have the same data challenges as much larger companies but are restrained by budget and resources. Businesses can keep their critical information always safe, accessible, and optimized with StorageCraft's data protection, data management and business continuity solutions. StorageCraft's innovative converged primary and secondary scale-out storage platform, with integrated data protection, solves data growth challenges, is efficient and easy to use for on-premises, cloud-based or hybrid deployments.

Symantec - <https://www.symantec.com>

Symantec Corporation, the world's leading cyber security company, allows organizations, governments, and people to secure their most important data wherever it lives. Enterprises across the world rely on Symantec for integrated cyber defense against sophisticated attacks across endpoints, infrastructure, and cloud. More than 50 million people and families rely on Symantec's Norton and LifeLock Digital Safety platform to help protect their personal information, devices, home networks, and identities at home and across their devices.

SyncSite – www.syncsite.net

SyncSite is a trusted business partner offering software based solutions including Customer Relationship Management, Field Service Management, Marketing Automation and Business Intelligence software. Our products and services allow companies to target opportunities that drive business, improve efficiencies, and positively impact the bottom line.

Technology Evaluation Centers - <https://www3.technologyevaluation.com>

Technology Evaluation Centers (TEC) is the world's leading provider of software selection resources, services, and research materials, helping organizations evaluate and select the best enterprise software for their unique needs. With its advanced decision-making process and software selection experts, TEC reduces the time, cost, and risk associated with enterprise software selection. For 25 years, TEC has specialized in unbiased software evaluation and selection to make sure your interests come first as your advocate.

Teridion – www.teridion.com

Teridion provides an enterprise WAN service built on the public cloud. Just like you have come to expect from cloud computing, Teridion's public cloud WAN service provides quick setup, global coverage, unbounded bandwidth and horizontal scale. The Teridion network is powered by Teridion Curated Routing, which fuses proven WAN acceleration techniques with metrics-driven route optimization.

Teridion delivers accelerated site-to-site performance, blazing fast IaaS and SaaS onramps, and the reassurance of a carrier-grade SLA, all over regular broadband connections. Best of all, the service is a snap-in integration to any appliance-based SD-WAN solution, and even works with legacy branch office routers.

The Comtel Group - <https://thecomtelgroup.com>

Every email, voice, video, or machine to machine session depends on; internet, voice/UCaaS, or WAN/SDWAN services. They're business blood flow! Good News: They're consistently going up in power and down in price. Bad News: You must deal with large carriers like; Telco's, ISP's, and Cable Co.'s. The problem isn't the technology; it's the providers, their

people and processes (BUREACRACY)! In fact, there are often long periods that are calm, but every time you interact with them, it's; wasted time and money, frustration/anxiety, or unacceptable levels of risk. What if there was a totally different and scientific approach, budget neutral or better, that changed your experience? . . . Carrier Management.

Totaldocs – www.totaldocs.com

Totaldocs is a cloud communication platform. It improves the customer and business journey through a smart and flexible multichannel communication environment. You can choose one of the Totaldocs personalized templates for documents, e-mails, SMS or design your own Communication Project Workflow.

Trend Micro Incorporated, a global leader in cybersecurity solutions, helps to make the world safe for exchanging digital information. Our innovative solutions for consumers, businesses, and governments provide layered security for data centers, cloud environments, networks, and endpoints. All our products work together to seamlessly share threat intelligence and provide a connected threat defense with centralized visibility and investigation, enabling better, faster protection. With almost 6,000 employees in over 50 countries and the world's most advanced global threat intelligence, Trend Micro enables organizations to secure their connected world. For more information, visit our website.

TSA – www.tsa.com

Many companies claim to have the answer to all of your problems, but how can they claim to know what you need before they have gotten to know you and your goals? We think that's crazy, so we've flipped that idea on its head: We get to know you and your business first, and look at the big picture of where you want to take your company. Using this information, we'll work with you to create a strategy that will help you reach those goals. We believe that the end result of the strategy should always be more important than the tech that supports it. After all, prioritizing the big picture makes it easy to maximize your end results and allows us to grow together.

vCom Solutions- <https://vcomsolutions.com>

vCom is a cloud-based software and managed services company focusing on helping enterprises manage IT spend from procure-to-pay. vCom improves visibility and control within a single platform while decreasing expenses for networks, mobile, cloud, collaboration and hardware technologies.

Virtiant, Inc. - <https://www.virtiant.com>

Recovery Site in the Cloud™ by Virtiant provides small to medium size businesses the capability to protect their mission-critical applications and data. We are enabling them to safeguard their profits and productivity during unplanned and planned disruptions to their IT environment. With Recovery Site in the Cloud™, businesses now have the capability to protect, run and recover their virtual machines from a secondary production-like environment with unparalleled ease, without losing performance and best of all with no more compromises.

WatchGuard Technologies - www.watchguard.com

For over 20 years, WatchGuard has pioneered cutting-edge cyber security technology and delivered it as easy-to-deploy and easy-to-manage solutions. With industry-leading network security, secure Wi-Fi, multi-factor authentication, and network intelligence products and services, WatchGuard enables midsize enterprises from around the globe to protect their most important assets. In a world where the cyber security landscape is constantly evolving, and new threats emerge each day, WatchGuard makes enterprise-grade cyber security technology accessible for every company.
